

**5TH ANNUAL
HEALTHCARE CONFERENCE**

Expert Panels

As of October 14, 2008

Epilepsy

A review of current medical and surgical treatment options for patients with epilepsy.

Assaf Guterman & Gene Mack

Hepatitis C

A review of the AASLD Conference and a preview of 2009.

Terence Flynn

Lung Cancer

An update on current treatment regimens for non-small cell lung cancer.

Joel Sendek

Point of Care Diagnostics

The convergence of technology and clinical needs shapes the vision for point of care diagnostic testing (POCT). POCT provides immediate actionable healthcare information outside the central laboratory, from diagnosis to monitoring to therapy adjustment.

Jeff Frelick

Obesity

Surgical, pharmaceutical and reimbursement trends shaping the obesity landscape.

Matthew Osborne & Sean Lavin
